* Depending on the software installed or your service provider or country, some of the descriptions in this guide may not match your phone exactly.
* Depending on your country, your phone and accessories may appear different from the illustrations in this guide.
Important safety precautions

Drive safely at all times
Do not use a hand-held phone while driving. Park your vehicle first.

Switch off the phone when refuelling
Do not use the phone at a refuelling point (service station) or near fuels or chemicals.

Switch off in an aircraft
Wireless phones can cause interference. Using them in an aircraft is both illegal and dangerous.

Switch off the phone near all medical equipment
Hospitals or health care facilities may be using equipment that could be sensitive to external radio frequency energy. Follow any regulations or rules in force.

Interference
All wireless phones may be subject to interference, which could affect their performance.

Copyright information
- Bluetooth® is a registered trademark of the Bluetooth SIG, Inc. worldwide. Bluetooth QD ID: B012863
- Java™ is a trademark or registered trademark of Sun Microsystems, Inc.
- Picsel and Picsel Viewer™ are trademarks of Picsel Technologies, Inc.
- Windows Media Player® is a registered trademark of Microsoft Corporation.
Be aware of special regulations
Meet any special regulations in force in any area and always switch off your phone whenever it is forbidden to use it, or when it may cause interference or danger.

Water resistance
Your phone is not water-resistant. Keep it dry.

Sensible use
Use only in the normal position (held to your ear). Avoid unnecessary contact with the antenna when the phone is switched on.

Emergency calls
Key in the emergency number for your present location, then press 1.

Keep your phone away from small children
Keep the phone and all its parts, including accessories, out of the reach of small children.

Accessories and batteries
Use only Samsung-approved batteries and accessories, such as headsets and PC data cables. Use of any unauthorised accessories could damage you or your phone and may be dangerous.

- The phone could explode if the battery is replaced with an incorrect type.
- Dispose of used batteries according to the manufacturer's instructions.

At very high volumes, prolonged listening to a headset can damage your hearing.

Qualified service
Only qualified service personnel may repair your phone.

For more detailed safety information, see "Health and safety information" on page 42.
About this Guide

This User’s Guide provides you with condensed information about how to use your phone. In this guide, the following instruction icons appear:

✅ Indicates that you need to pay careful attention to the subsequent information regarding safety or phone features.

→ Indicates that you need to press the touch panel to scroll to the specified option and then select it.

[ ] Indicates a key on the phone and touch panel. For example, [ ]

< > Indicates a soft key, whose function is displayed on the phone screen. For example, <Menu>

Special features of your phone

- **Camera and camcorder**
  Use the camera module on your phone to take a photo or record a video.

- **Synchronisation with Windows Media Player**
  Transfer music files to your phone directly from Windows Media Player.

- **Music player**
  Play music files on your phone. You can use other phone functions while listening to music.
- **FM radio**
  Listen to your favourite radio stations anytime, anywhere.

- **Image editor**
  Edit or decorate your photos.

- **Photo printing**
  Print your photos to preserve your best moments forever.

- **Phone to TV**
  View photos and video clips captured with the phone on your TV screen.

- **Offline mode**
  Switch your phone to Offline mode to use its non-wireless functions while on an aeroplane.

- **Bluetooth**
  Transfer media files and personal data, and connect to other devices using wireless Bluetooth technology.

- **File viewer**
  Open documents in various formats on the phone without corruption.

- **SOS message**
  Send SOS messages to your family or friends for help in an emergency.

### Get started

#### Access menu functions

| Select an option | 1. Press a desired soft key.  
2. Press the touch panel to move to the next or previous option.  
3. Press `<Select>`, `<OK>`, or `[OK]` to confirm the function displayed or option highlighted.  
4. Press `<Back>` to move up one level. Press `[ ]` to return to Idle mode. |
| Use menu numbers | Press the number key corresponding to the option you want. |

#### Enter text

| Change the text input mode | To enter a word:  
Press the appropriate key until the character you want appears on the display. |
| ABC mode | Press and hold `[●]` to switch between T9 mode and ABC mode.  
Press `[●]` to change case or switch to Number mode.  
Press and hold `[●]` to switch to Symbol mode. |
<table>
<thead>
<tr>
<th>Mode</th>
<th>Instructions</th>
</tr>
</thead>
</table>
| **T9 mode** | To enter a word:  
2. Enter the whole word before editing or deleting characters.  
3. When the word displays correctly, press [ # ] to insert a space. Otherwise, press [0] to select a word from the alternative word choices. |
| **Number mode** | Press the keys corresponding to the digits you want. |
| **Symbol mode** | Press the corresponding number key to select a symbol. |
| **Other operations** | - Press [1] to enter punctuation marks or special characters.  
- Press [ # ] to insert a space.  
- Press the touch panel to move the cursor.  
- Press <Clear> to delete characters one by one.  
- Press and hold <Clear> to clear the entire display. |
Get started

Customise your phone

1. In Idle mode, press `<Menu>` and select Settings → Phone settings → Language.
2. Select a language.

Call ringer melody
1. In Idle mode, press `<Menu>` and select Settings → Sound settings → Incoming call → Ring tone.
2. Select a ringtone category.
3. Select a ringtone.
4. Press `<Save>`.

Display language

Key tone volume
In Idle mode, press `[▲/▼]` to adjust the key tone volume.

Idle mode wallpaper
1. In Idle mode, press `<Menu>` and select Settings → Display settings → Wallpaper.
2. Press `[◄]` or `[►]` to select Normal.
3. Select Main display.
4. Select a category.
5. Select an image or a video.
6. Press `<Select>` or `<✓>`.
7. If necessary, press `[✓]` and then `<Yes>`.
8. Press `<Save>`.
### Menu mode

<table>
<thead>
<tr>
<th>skin colour</th>

</tr>
</tbody>
</table>

### Silent mode

You can switch the phone to Silent mode to avoid disturbing other people. In Idle mode, press and hold [#].

1. In Idle mode, press `<Menu>` and select Settings → Security → Phone lock.
2. Select Enable.
3. Enter a new 4- to 8-digit password and press `<OK>`.
4. Enter the new password again and press `<OK>`.
Get started

Use an optional memory card

Important memory card information

- Frequent erasing and writing will shorten a card’s lifespan.
- Do not remove a card from the phone or turn off the phone while data is being accessed or transferred. This could result in loss of data and/or damage to the card or phone.
- Do not subject cards to strong shocks.

- Keep cards away from small children or pets.
- Do not expose cards in a place subject to electrostatic discharge and/or electrical noise.
- Do not touch card terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.
Step outside the phone

Begin with call functions, camera, music player, web browser, and other special features

Make or answer calls

Make a call

1. In Idle mode, enter an area code and phone number.
2. Press [ ].
   Press [ ] to adjust the volume.
   During a call, the touch keys and the touch panel are locked. Press [ ] to unlock.
3. Press [ ] to end the call.
1. Open the phone. If the phone is already open, press [ ].
2. Press [ ] to end the call.

**Answer a call**

**Use the speakerphone feature**
During a call, press [OK] and then <Yes> to activate the speaker. Press [OK] again to switch back to the earpiece.

**Make a multi-party call**

1. During a call, call the second participant. The first call is put on hold.
2. Press <Options> and select Join.
3. Repeat step 1 and 2 to add more participants.

4. During a multi-party call:
   - Press <Options> and select Select one → Options → Private to have a private conversation with one participant.
   - Press <Options> and select Select one → Options → Remove to drop one participant.

5. Press [ ] to end the multi-party call.
Use the camera

**Take a photo**
1. In Idle mode, press and hold [ ] to turn on the camera.
2. Rotate the phone to the left for landscape view.
3. Aim the lens at the subject and make any desired adjustments.
4. Press [ ] or [ ] to take a photo. The photo is saved automatically.
5. Press < > to take another photo.

**View a photo**
1. In Idle mode, press <Menu> and select My files → Images → My photos.
2. Select the photo you want.

**Record a video**
1. In Idle mode, press and hold [ ] to turn on the camera.
2. Press [ ] to switch to Record mode.
3. Rotate the phone to the left for landscape view.
Step outside the phone

Use these methods:

1. In Idle mode, press <Menu> and select My files → Videos → My video clips.
2. Select the video you want.

Play music

Use these methods:

- Download from the wireless web.
- Receive via Bluetooth.
- Copy to a memory card.
- Synchronise music files with Windows Media Player. See page 21.

Prepare music files

5. Press [ 或 ], < 或 >, or [ 或 ] to stop recording. The video is saved automatically.
6. Press < 或 > to record another video.

View a video

- Download from the wireless web.
- Receive via Bluetooth.
- Copy to a memory card.
- Synchronise music files with Windows Media Player. See page 21.
When you insert a memory card with a large amount of files, your phone might work rather slowly for a few minutes while database updates. This may also affect some phone functions. This problem is temporary and is not a phone defect.

**Copy music files to a memory card**

1. Insert a memory card into the phone.
2. In Idle mode, press <Menu> and select **Settings** → **Phone settings** → **USB settings** → **Mass storage**.
3. Connect your phone and PC with an optional PC data cable.
4. Select **Open folder to view files** when a pop-up window appears on your PC.

**Copy files from the PC to the memory card.**

5. Copy files from the PC to the memory card.

**When you have finished, disconnect the phone from the PC.**

**You can copy music files to your phone by synchronising with Windows Media Player 11.**

1. In Idle mode, press <Menu> and select **Settings** → **Phone settings** → **USB settings** → **Media player**.
2. Connect your phone and PC with an optional PC data cable.

---
3. Select **Sync digital media files to this device** when a pop-up window appears on your PC.
4. Enter the name of your phone and click **Finish**.
5. Select and drag the music files you want to the sync list.
6. Click **Start Sync**.
7. When synchronisation is finished, disconnect the phone from the PC.

1. In Idle mode, press `<Menu>` and select **Music player**.
2. Select a music category → a music file.
3. During playback, use the following keys:
   - ◀/▶: pause or resume playback.
   - ◂: restart playback.
   - ◂: skip to the previous file within 3 seconds after the playback has started.
   - ◂: press and hold to scan backward in a file.
   - ◂: skip to the next file.
   - ◂: press and hold to scan forward in a file.
Listen to the FM radio

1. Plug the connector of the supplied headset into the multi-function jack on the phone.
2. In Idle mode, press <Menu> and select Applications → FM radio.
3. Press [ ] to turn on the radio.

Listen to the radio

1. From the music player screen, press <Options> and select Open playlist → All → Playlists.
2. Press <Options> and select Create playlist.
3. Enter the title of the playlist and press <Save>.
4. Select the added playlist.
5. Press <Options> and select Add → a source.
6. Select a music category or select the files you want and press <Add> or <Select>.

Create your playlist

1. From the music player screen, press <Options> and select Open playlist → All → Playlists.
2. Press <Options> and select Create playlist.
3. Enter the title of the playlist and press <Save>.
4. Select the added playlist.
5. Press <Options> and select Add → a source.
6. Press [ ] to stop playback.

- • : open the playlist.
  • ▲/▼: adjust the volume.
Step outside the phone

4. Press [◄] or [►] to find available radio stations.
5. Press [◆] to turn off the radio.

Store radio stations

By automatic tuning:
From the radio screen, press <Options> and select Self-tuning.
Available radio stations are automatically saved.

By manual setup:
1. From the radio screen, press [◄] or [►] to select the station you want.
2. Press <Options> and select Add to Favourites.

Browse the web

Launch the web browser
In Idle mode, press [0]. The homepage of your service provider opens.

Navigate the web
- To scroll through browser items, press [▲] or [▼].
- To select an item, press [OK].
- To return to the previous page, press <Back>.
- To access browser options, press <Options>.

• To scroll through browser items, press [▲] or [▼].
• To select an item, press [OK].
• To return to the previous page, press <Back>.
• To access browser options, press <Options>.

In Idle mode, press [0]. The homepage of your service provider opens.

• To scroll through browser items, press [▲] or [▼].
• To select an item, press [OK].
• To return to the previous page, press <Back>.
• To access browser options, press <Options>.
Use Phonebook

Add a contact
1. In Idle mode, enter a phone
   number and press
   <Options>.
2. Select Save contact → a
   memory location → New.
3. For Phone, select a number
   type.
4. Specify contact information.
5. Press <Save> or [OK] to
   save the contact.

Find a contact
1. In Idle mode, press
   <Contacts>.
2. Enter the first few letters
   of the name you want.
3. Select a contact.
4. Scroll to a number and
   press [ ] to dial, or press
   [OK] to edit contact
   information.

Send messages

Send a text message
1. In Idle mode, press
   <Menu> and select
   Messages → Create
   message → Message.
2. Enter destination numbers
   and press [ ].
3. Enter the message text.
4. Press <Options> and select
   Send to send the message.
Step outside the phone

**Send a multimedia message**

1. In Idle mode, press `<Menu>` and select Messages → Create message → Message.
2. Enter destination numbers or email addresses and press `[ ]`.
3. Enter the message text.
4. Press `<Options>` and select Add multimedia.
5. Add media files.
6. Press `<Options>` and select Advanced → Add subject.
7. Enter the message subject.
8. Press `<Options>` and select Send to send the message.

**Send an email**

1. In Idle mode, press `<Menu>` and select Messages → Create message → Email.
2. Enter email addresses and press `[ ▼ ]`.
3. Enter the subject and press `[ ▼ ]`.
4. Enter the email text.
5. Press `<Options>` and select Attach multimedia or Attach organiser.
6. Add media files, contacts, or calendar items.
7. Press `<Options>` and select Send to send the email.
View messages

View a text message
1. In Idle mode, press Menu and select Messages → My messages → Inbox.
2. Select a text message.

View a multimedia message
1. In Idle mode, press Menu and select Messages → My messages → Inbox.
2. Select a multimedia message.

View an email
1. In Idle mode, press Menu and select Messages → My messages → Email inbox.
2. Select an account.
3. Press Options and select Check for new email.
4. Select an email or a header.
5. If you selected a header, press Options and select Retrieve to view the body of the email.
Step outside the phone

Use Bluetooth

Your phone is equipped with Bluetooth technology, enabling you to connect the phone wirelessly to other Bluetooth devices and exchange data with them, talk hands-free, or control the phone remotely.

1. In Idle mode, press <Menu> and select Applications → Bluetooth → Activation → On.
   † Bluetooth is available under Applications if the Yahoo! ready or Google service is available.

2. Select My phone’s visibility → On to allow other devices to locate your phone.

1. In Idle mode, press <Menu> and select Applications → Bluetooth → My devices → Search for new devices.
   † Bluetooth is available under Applications if the Yahoo! ready or Google service is available.

2. Select a device.

3. Enter a Bluetooth PIN or the other device’s Bluetooth PIN, if it has one, and press <OK>.
   When the owner of the other device enters the same code, pairing is complete.
1. Access an application, such as Phonebook, My files, Calendar, or Memo.
2. Select an item.
3. Press <Options> and select Send via - Bluetooth.
4. For sending a contact, select which data you want to send.
5. Search for and select a device.
6. If necessary, enter the Bluetooth PIN and press <OK>.

---

1. When a device attempts to access your phone, press <Yes> to permit the connection.
2. If necessary, press <Yes> to confirm that you are willing to receive.

<td>Check information about the memory currently in use.</td>
</tr>
</tbody>
</table>

Calendar

Keep track of your schedule.

Camera

Use the camera embedded in your phone to take photos and record videos.

Yahoo! ready/Google/Bluetooth/Java world

Depending on your country or service provider, you may have one of these four menus here:

- **Yahoo! ready**: Launch the Yahoo search engine to find information, news, images, or local services from around the web. You can also use the messenger service.
- **Google**: Launch the Google search engine to find information, news, images, or local services from around the web. You can also use the email service.
- **Bluetooth**: Connect the phone wirelessly to other Bluetooth devices.
- **Java world**: Access Java games and applications.

### Applications

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Smart search</td>
<td>Quickly search your phone for any stored information by category. You can access all the results directly from the search screen.</td>
</tr>
<tr>
<td>Voice recorder</td>
<td>Record voice memos and any other sounds.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>FM radio</td>
<td>Listen to music or news via the FM radio on your phone.</td>
</tr>
<tr>
<td>Image editor</td>
<td>Edit your photos using various editing tools.</td>
</tr>
<tr>
<td>Image stamp</td>
<td>Make an outline stamp of a photo and merge it with another photo.</td>
</tr>
<tr>
<td>Bluetooth‡</td>
<td>Connect the phone wirelessly to other Bluetooth devices.</td>
</tr>
<tr>
<td>Java world‡</td>
<td>Access Java games and applications.</td>
</tr>
</tbody>
</table>
If the Yahoo! ready and Google services are not available depending on your country or service provider, Bluetooth or Java world will move to menu 9.

### Alarms
Set a wake-up call to wake you up in the morning or an alarm to alert you to an event at a specific time.

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>World clock</td>
<td>Set your local time zone and find out the current time in another part of the world.</td>
</tr>
<tr>
<td>Calculator</td>
<td>Perform arithmetic functions.</td>
</tr>
<tr>
<td>Convertor</td>
<td>Do conversions, such as length and temperature.</td>
</tr>
<tr>
<td>Timer</td>
<td>Set a period of time for the phone to count down.</td>
</tr>
<tr>
<td>Stopwatch</td>
<td>Measure elapsed time.</td>
</tr>
<tr>
<td>Memo</td>
<td>Make memos for things that are important and manage them.</td>
</tr>
<tr>
<td>SIM application toolkit</td>
<td>Use a variety of additional services offered by your service provider. Depending on your SIM card, this menu may be available but labelled differently.</td>
</tr>
</tbody>
</table>

### Convertor
Do conversions, such as length and temperature.

**Memo**
Make memos for things that are important and manage them.
## Settings

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>

<td>Select a USB mode that will be used when you connect your phone to another device via USB interface.</td>
</tr>
<tr>
<td><strong>Phone settings</strong> - Word suggestion</td>
<td>Set the phone to display a list of alternative word choices in T9 mode.</td>
</tr>
<tr>
<td><strong>Display settings</strong> - Wallpaper</td>
<td>Set up the idle screen on the display.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Display settings</strong> - Theme</td>
<td>Select a skin colour pattern for Menu mode.</td>
</tr>
<tr>
<td><strong>Display settings</strong> - Text display</td>
<td>Select a font size and type to be used and change the display settings for the text displayed on the idle screen.</td>
</tr>
<tr>
<td><strong>Display settings</strong> - Brightness</td>
<td>Adjust the brightness of the display for varying lighting conditions.</td>
</tr>
<tr>
<td><strong>Display settings</strong> - Dialling display</td>
<td>Customise the settings for the display while dialling.</td>
</tr>
<tr>
<td><strong>Display settings</strong> - Clock display</td>
<td>Select a clock type to be displayed on the idle screen.</td>
</tr>
<tr>
<td>Menu</td>
<td>Description</td>
</tr>
<tr>
<td>-----------------------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Display settings — Show caller information</td>
<td>Set the phone to display or block caller information on all missed calls and incoming messages.</td>
</tr>
<tr>
<td>Display settings — TV-out settings</td>
<td>Select a video system for your TV to view the phone display on the TV screen.</td>
</tr>
<tr>
<td>Sound settings — Incoming call</td>
<td>Change the sound settings for incoming calls.</td>
</tr>
<tr>
<td>Sound settings — Keypad tone</td>
<td>Select the tone that the phone sounds when you press a key or the touch panel.</td>
</tr>
<tr>
<td>Sound settings — Message tone</td>
<td>Change the sound settings for incoming messages individually according to message type.</td>
</tr>
<tr>
<td>Sound settings — Power on/off tone</td>
<td>Set the phone to sound when it is switched on or off.</td>
</tr>
<tr>
<td>Sound settings — Silent mode</td>
<td>Set how the phone acts to alert you to a specific event while in Silent mode.</td>
</tr>
<tr>
<td>Sound settings — Extra tones</td>
<td>Customise additional tones for the phone.</td>
</tr>
<tr>
<td>Light settings — Backlight time</td>
<td>Select the length of time the backlight or display stays on when the phone is not used.</td>
</tr>
<tr>
<td>Light settings — Sunlight mode</td>
<td>Select whether the phone changes the tone of its display colour to improve visibility.</td>
</tr>
</tbody>
</table>
### Menu functions

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light settings → Keypad light</td>
<td>Set how the phone controls the use of the keypad light.</td>
</tr>
<tr>
<td>Setup wizard</td>
<td>Quickly customise basic settings of your phone. Select the option you want for each setting by following the onscreen instructions.</td>
</tr>
<tr>
<td>Network services → Call diverting</td>
<td>Set the phone to reroute incoming calls to a phone number that you specify.</td>
</tr>
<tr>
<td>Network services → Call barring</td>
<td>Set the phone to restrict calls.</td>
</tr>
<tr>
<td>Network services → Call waiting</td>
<td>Set the phone to inform you when someone is calling you while on another call.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>

<tr>
<td>Security → Change password</td>
<td>Change the phone password.</td>
</tr>
<tr>
<td>Security → Privacy</td>
<td>Lock access to messages, files, or all menu functions on the phone, except for call functions.</td>
</tr>
<tr>
<td>Security → SIM lock</td>
<td>Set the phone to work only with the current SIM card by assigning a SIM lock password.</td>
</tr>
<tr>
<td>Security → Fixed dialling mode</td>
<td>Set the phone to restrict calls to a limited set of phone numbers, if supported by your SIM card.</td>
</tr>
<tr>
<td>Security → Change PIN2 code</td>
<td>Change your current PIN2, if supported by your SIM card.</td>
</tr>
<tr>
<td>Security → Mobile tracker</td>
<td>Set the phone to send the preset tracking message to your family or friends when someone tries to use your phone with another SIM card. This feature may be unavailable due to certain features supported by your service provider.</td>
</tr>
</tbody>
</table>
Health and safety information

SAR certification information
This phone meets European Union (EU) requirements concerning exposure to radio waves. Your mobile phone is a radio transmitter and receiver. It is designed and manufactured to not exceed the limits for exposure to radio-frequency (RF) energy, as recommended by the EU Council. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines were developed by independent scientific organisations through the periodic and thorough evaluation of scientific studies. The limits include a substantial safety margin designed to ensure the safety of all persons, regardless of age and health.

The exposure standard for mobile phones employs a unit of measurement known as Specific Absorption Rate (SAR). The SAR limit recommended by the EU Council is 2.0 W/kg.¹

The highest SAR value for this model phone was 0.401 W/kg.

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Connection settings</td>
<td>Create and customise the profiles containing the settings for connecting your phone to the network.</td>
</tr>
<tr>
<td>Memory status</td>
<td>Check information about the memory currently in use.</td>
</tr>
<tr>
<td>Reset settings</td>
<td>Reset the phone’s settings you have changed.</td>
</tr>
</tbody>
</table>
SAR tests are conducted using standard operating positions with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a base station, the lower the power output of the phone. Before a new model phone is available for sale to the public, compliance with the European R&TTE Directive must be shown. This directive includes as one of its essential requirements the protection of the health and safety of the user and any other person.

Precautions when using batteries

- Never use a charger or battery that is damaged in any way.
- Use the battery only for its intended purpose.
- If you use the phone near the network’s base station, it uses less power. Talk and standby time are greatly affected by the signal strength on the cellular network and the parameters set by the service provider.
- Battery charging time depends on the remaining battery charge, the type of battery, and the charger used. The battery can be charged and discharged hundreds of times, but it will gradually wear out. When the operation time is noticeably shorter than normal, it is time to buy a new battery.
- If left unused, a fully charged battery will discharge itself over time.
- Use only Samsung-approved batteries, and recharge your battery only with Samsung-approved chargers. Disconnect the charger from the power source when it is not in use. Do not leave the battery connected to a charger for more than a week, since overcharging may shorten its life.

1. The SAR limit for mobile phones used by the public is 2.0 watts/kg (W/kg) averaged over ten grams of body tissue. The limit incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements. The SAR values may vary, depending on national reporting requirements and the network band.
Health and safety information

- Extreme temperatures will affect the charging capacity of your battery: it may require cooling or warming first.
- Do not leave the battery in hot or cold places because the capacity and lifetime of the battery will be reduced. Try to keep the battery at room temperature. A phone with a hot or cold battery may not work temporarily, even when the battery is fully charged. Li-ion batteries are particularly affected by temperatures below 0° C (32° F).
- Do not short-circuit the battery. Accidental short-circuiting can occur when a metallic object like a coin, clip or pen causes a direct connection between the + and – terminals of the battery (metal strips on the battery). For example, do not carry a spare battery in a pocket or bag where the battery may contact metal objects. Short-circuiting the terminals may damage the battery or the object causing the short-circuiting.
- Dispose of used batteries in accordance with local regulations. Always recycle. Do not dispose of batteries in a fire.

Road safety

Your wireless phone gives you the powerful ability to communicate by voice, almost anywhere, anytime. But an important responsibility accompanies the benefits of wireless phones, one that every user must uphold. When you are driving a car, driving is your first responsibility. When using your wireless phone while driving, follow local regulations in the country or region you are in.

Operating environment

Remember to follow any special regulations in force in the area you are in, and always switch off your phone whenever it is forbidden to use it, or when it may cause interference or danger. When connecting the phone or any accessory to another device, read its user’s guide for detailed safety instructions. Do not connect incompatible products.
As with other mobile radio transmitting equipment, users are advised that for the satisfactory operation of the equipment and for the safety of personnel, it is recommended that the equipment should only be used in the normal operating position (held to your ear with the antenna pointing over your shoulder).

Electronic devices
Most modern electronic equipment is shielded from radio frequency (RF) signals. However, certain electronic equipment may not be shielded against the RF signals from your wireless phone. Consult the manufacturer to discuss alternatives.

Pacemakers
Pacemaker manufacturers recommend that a minimum distance of 15 cm (6 inches) be maintained between a wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research and recommendations of Wireless Technology Research. If you have any reason to suspect that interference is taking place, switch off your phone immediately.

Hearing aids
Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may wish to consult your hearing aid manufacturer to discuss alternatives.

Other medical devices
If you use any other personal medical devices, consult the manufacturer of your device to determine if it is adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Switch off your phone in health care facilities when regulations posted in these areas instruct you to do so.

Vehicles
RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle.

You should also consult the manufacturer of any equipment that has been added to your vehicle.
Health and safety information

Posted facilities
Switch off your phone in any facility where posted notices require you to do so.

Potentially explosive environments
Switch off your phone when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Users are advised to switch off the phone while at a refuelling point (service station). Users are reminded of the need to observe restrictions on the use of radio equipment in fuel depots (fuel storage and distribution areas), chemical plants, or where blasting operations are in progress.

Areas with a potentially explosive atmosphere are often but not always clearly marked. They include the areas below decks on boats, chemical transfer or storage facilities, vehicles using liquefied petroleum gas, such as propane or butane, areas where the air contains chemicals or particles, such as grain, dust or metal powders, and any other area where you would normally be advised to turn off your vehicle engine.

Emergency calls
This phone, like any wireless phone, operates using radio signals, wireless, and landline networks as well as user-programmed functions, which cannot guarantee connection in all conditions. Therefore, you should never rely solely on any wireless phone for essential communications like medical emergencies.

To make or receive calls, the phone must be switched on and in a service area with adequate signal strength. Emergency calls may not be possible on all wireless phone networks or when certain network services and/or phone features are in use. Check with local service providers.

To make an emergency call:
1. Switch on the phone.
2. Key in the emergency number for your present location. Emergency numbers vary by location.
3. Press [ ].

Certain features like Call Barring may need to be deactivated before you can make an emergency call. Consult this document and your local cellular service provider.
Other important safety information

- Only qualified personnel should service the phone or install the phone in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty applicable to the device.
- Check regularly that all wireless phone equipment in your vehicle is mounted and operating properly.
- Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the phone, its parts, or accessories.
- For vehicles equipped with an air bag, remember that an air bag inflates with great force. Do not place objects, including installed or portable wireless equipment, in the area over the air bag or in the air bag deployment area. Improperly installed wireless equipment could result in serious injury if the air bag inflates.
- Switch off your phone before boarding an aircraft. It is dangerous and illegal to use wireless phones in an aircraft because they can interfere with the operation of the aircraft.
- Failure to observe these instructions may lead to the suspension or denial of telephone services to the offender, or legal action, or both.

Care and maintenance

Your phone is a product of superior design and craftsmanship and should be treated with care. The suggestions below will help you fulfill any warranty obligations and allow you to enjoy this product for many years.

- Keep your phone and all its parts and accessories out of the reach of small children and pets. They may accidentally damage these things or choke on small parts.
- Keep the phone dry. Precipitation, humidity, and liquids contain minerals that corrode electronic circuits.
- Do not use the phone with a wet hand. Doing so may cause an electric shock to you or damage to the phone.
Health and safety information

- Do not use or store the phone in dusty, dirty areas, as its moving parts may be damaged.
- Do not store the phone in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the phone in cold areas. When the phone warms up to its normal operating temperature, moisture can form inside the phone, which may damage the phone's electronic circuit boards.
- Do not drop, knock, or shake the phone. Rough handling can break internal circuit boards.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the phone. Wipe it with a soft cloth.
- Do not paint the phone. Paint can clog the device's moving parts and prevent proper operation.
- Do not put the phone in or on heating devices, such as a microwave oven, stove, or radiator. The phone may explode when overheated.
- When the phone or battery gets wet, the label indicating water damage inside the phone changes colour. In this case, phone repairs are no longer guaranteed by the manufacturer's warranty, even if the warranty for your phone has not expired.
- If your phone has a flash or light, do not use it too close to the eyes of people or animals. This may cause damage to their eyes.
- Use only the supplied or an approved replacement antenna. Unauthorized antennas or modified accessories may damage the phone and violate regulations governing radio devices.
- If the phone, battery, charger, or any accessory is not working properly, take it to your nearest qualified service facility. The personnel there will assist you, and if necessary, arrange for service.
Declaration of Conformity (R&TTE)

Samsung Electronics

We, Samsung Electronics, hereby declare under our sole responsibility that the product:

GSM Mobile Phone : SGH-E950

is in conformity with the following standards and/or other normative documents:

- **SAFETY**
  - EN 60950-1:2006+A11:2009
- **EMC**
  - EN 301 489-1:2009
  - EN 301 489-3:2009
  - EN 301 489-17:2009
- **SEM**
  - EN 300 328-1:2006
- **R&TE**
  - EN 301 511 V10.2.1 (2009-11)
  - EN 300 328 V1.2.1 (2006-06)

We hereby declare that all essential radio test modes have been carried out and that the above named product is in conformity with all the essential requirements of Directive 1999/5/EC.

The conformity assessment procedure referred to in Article 10 and detailed in Annex V of Directive 1999/5/EC has been fulfilled with the involvement of the following notified body(ies):
- **BMT**, Badger House, Chorlton Road, Wetherby/Thorpe, Boston, BT23 3GQ
  - Identification mark: 0168

The technical documentation kept at:

Samsung Electronics UK Ltd.

which will be made available upon request.
